

**THE MICROSCOPE  
TRAINING CENTER**  
BANGALORE

TWO-DAY BEGINNER'S COURSE IN  
**MICROSCOPIC ENDODONTICS**

# TWO-DAY BEGINNER'S COURSE IN MICROSCOPIC ENDODONTICS

This is a course meant for the clinician who has no prior experience with microscopes. There will be one course held every month.

**Course:** Microscopic Endodontics

**Duration:** 2 days

**Time:** 10 AM to 6 PM

**Maximum number of participants:** 5

## Who will benefit from attending?

- Practitioners who wish to learn how to use the surgical microscope and integrate it into everyday Endodontic practice
- Endodontists and Post graduate students

## Demo and Hands-on Exercises:

(All exercises are performed on Phantom head and indirect vision. Every participant will have an independent workstation, microscope and assistant)

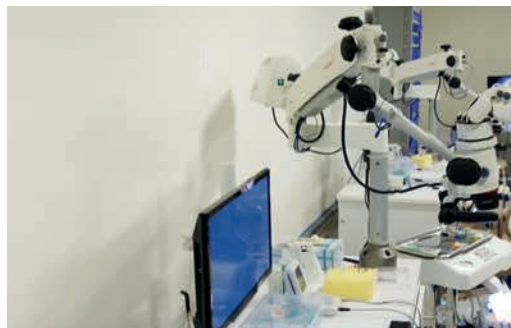

- Microscope basics
- Operatory design for Microscope use
- Armamentarium for Micro-Endodontics
- Photography and documentation
- Microscopic Endodontics on Maxillary teeth
- Microscopic Endodontics in Mandibular teeth

## Materials required:

Participants to bring extracted teeth. All other materials will be provided by us.

**Course Fee:** Rs 59,000

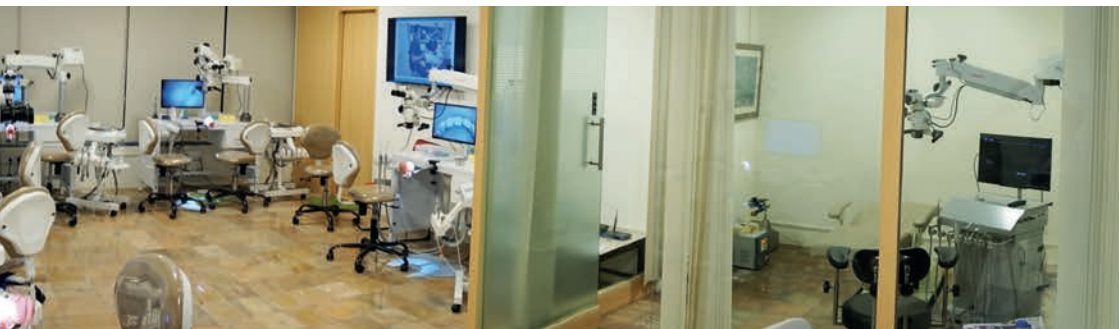

## THE MICROSCOPE TRAINING CENTER BANGALORE

- This is India's first exclusive Microscope training Centre.
- Each participant has an independent 5 step Microscope with inclinable eyepiece, LED light source, Variable focus objective and Dual Iris diaphragm.
- Each Microscope has a video camera connected to a monitor which enables interaction between the teacher and student.
- Each workstation has an independent Airtor, Micromotor, Endo motor, Scaler, Stropko irrigator, Down pack and Back-fill devices along with high vac and micro-suctions.

- Every participant will have an individual dental assistant.
- The center has an ideal ergonomically designed operator which guides participants in setting up their own operator for Micro-Endodontics
- The training center is fully equipped with every equipment available for practicing microscopic endodontics.

## COURSE INSTRUCTOR:

# DR. SIJU JACOB

Dr. Siju Jacob completed his Bachelor of Dental surgery (BDS) from Bangalore Institute of Dental Sciences, Bangalore (1992-1997).

After a brief stint as a Lecturer, he completed a 3-year Post graduate program in Conservative Dentistry and Endodontics from Saveetha Dental College, Chennai. (1998 – 2001)

In 2001, he moved back to Bangalore to start a practice limited to Endodontics.

In 2004, He founded “The Root Canal Clinic”, Bangalore’s first and only Practice limited to Microscopic Endodontics.

Dr. Siju was the first Endodontist in Bangalore to advocate the use of a surgical Microscope to perform all Endodontic procedures. Today, he is recognized globally as an Expert in Microscopic Endodontics.

He is Passionate about educating Endodontists and Dentists on advancements in Endodontics. This eventually motivated him to set up India's first training centre for Micro-Endodontics at Bangalore. He lectures and conducts Hands-on courses for Endodontists and General dentists, both in India and abroad.

He serves as an Endodontic expert on several popular online educational forums. His articles, cases and lectures can be accessed throughout the internet. He has also contributed to two reputed Endodontic Textbooks.

He has a Private Practice Limited to Endodontics in Bangalore and Dubai.

Dr. Siju jacob is a member of The Indian Endodontic Society, The British Endodontic Society and The American Association of Endodontists.

# TESTIMONIALS

Dr Siju is a passionate teacher and a great mentor who always encourages his students on improving their clinical skills.

This is one of the finest courses I have attended so far. Dr Siju is a passionate teacher and a great mentor who always encourages his students on improving their clinical skills. Overall an excellent course which is well organized with lots of useful techniques. I would highly recommend this course without any reservations who genuinely want to upgrade their skills.

Thank you, Dr Siju, for your invaluable mentoring which is the most unique advantage of attending this course.

**Dr. Kavita Tarale**  
Dubai

**I feel fortunate to have been trained under Dr. Siju**

I had been practicing general dentistry since 2011, but later in my career, I decided to take the microscope course with Dr. Siju Jacob in November 2015. It was a life-changing experience for me.

For the first time, I was amazed at how much more precise and efficient the work became under the microscope. It completely transformed the way I execute treatments, from minimal access to the final restoration.

This course was a turning point in my career. Being guided and mentored by Dr. Siju, who is a remarkably humble person, in a world-class facility with a well-equipped training center, was an invaluable experience.

I feel fortunate to have been trained under Dr. Siju, and my journey with the microscope has been nothing short of amazing.

**Dr. Deepesh Bandari**  
Hubli

**I highly recommend training with dr. siju. I am sure everyone will agree that it's both an enjoyable and highly valuable experience.**

When I decided to incorporate the Dental Operating Microscope (DOM) into my everyday practice, I was determined to learn how to use it the right way.

I began searching for courses and attended a few, but none of them made a significant impact, which kept me on the lookout for the right training under a professional mentor.

The two-day training with Dr. Siju was incredibly valuable. I learned a great deal and now perform all my root canals under the microscope with confidence and ease. Dr. Siju also added me to a closed WhatsApp group for ongoing discussions and continued support. This training was exactly what I needed—and more.

I highly recommend training with dr. siju. I am sure everyone will agree that it's both an enjoyable and highly valuable experience.

**Dr. Jeyavel Rajan**  
Malaysia

**Dr Siju has learnt to work with optimal ergonomics and is generous in sharing his vast knowledge and experience.**

I would highly recommend Dr Siju's course to anyone seriously considering incorporating a Microscope into their practice. I have found that the most common reason that clinicians purchase a scope and then struggle to get comfortable is a lack of ergonomics.

Dr Siju has learnt to work with optimal ergonomics and is generous in sharing his vast knowledge and experience. The mentoring after the course is unmatched and one can feel free to reach out to him for any questions.

**Dr. Vinay Balaji**  
Coimbatore

I highly recommend training with Dr. Siju to anyone looking to take their practice to the next level.

Words aren't enough to fully express my gratitude to Dr. Siju for transforming me into the person I am today—equipped with a new skillset and a completely different mindset.

I first visited Dr. Siju in 2016, and since then, I have never missed a course with him.

His continuous mentorship has been instrumental in significantly elevating the quality of my work. Dr. Siju's extensive international exposure and experience give him a unique edge in teaching and understanding the needs and challenges that students typically face.

Thanks to his guidance, I was able to transform my 20-year-old general practice into a specialized one, gaining immense confidence in treating complex cases such as instrument retrieval, perforation repairs, open apex cases, and handling large radiolucencies, all while building a referral-based practice.

Everything I've achieved so far is a direct result of his mentorship. I highly recommend training with Dr. Siju to anyone looking to take their practice to the next level. A heartfelt thanks again to Dr. Siju and his amazing team.

**Dr. Sumit Bhatnagar**  
New Delhi

**Dr. Siju has really set a benchmark for other courses.**

Dr. Siju has helped me upgrade my skills and make me a better clinician. Dr. Siju has created a community for like-minded individuals to interact, share ideas and improve themselves. Dr. Siju has really set a benchmark for other courses.

**Dr. Trishul Gangadhar**  
Bangalore

He has always been there to guide me, encourage me, and ensure that I continue to grow in my field.

Dr. Siju Jacob is not only an exceptional teacher but also an incredible human being. His dedication to teaching and mentoring goes beyond the ordinary, and his willingness to support and guide his students at any time of day is truly remarkable.

My journey with the microscope began in 2019 under his guidance, and it has been transformative for my dental practice. This course laid the foundation for a new dimension in my work. The insights I gained from this training have been invaluable, significantly enhancing my confidence and skills. It helped me design my practice in an ergonomically efficient way, ensuring a setup that promotes both productivity and long-term well-being.

What makes Dr. Siju truly exceptional is his unwavering commitment to his students. He has always been there to guide me, encourage me, and ensure that I continue to grow in my field. His passion for teaching and his ability to inspire are unmatched, and I feel incredibly fortunate to have him as my mentor.

**Dr. Sravanthi Reddy**  
Hyderabad

**I strongly recommend the courses conducted by Dr Siju for everyone who is clinically inclined.**

Having completed my MDS in Endodontics in 1997 I was able to purchase a microscope only in 2015. But the training I got from Dr Siju in 2017 really helped me understand what I am seeing in the scope and what to do with it. I strongly recommend the courses conducted by Dr Siju for everyone who is clinically inclined.

**Dr. Madhu Mathews**  
Dubai

**This is the he gateways to your goals! HIGHLY HIGHLY recommended!**

Dr. Siju is amongst those rare breed of educators who actually want to teach unbiased clinical practices with reasoning. Every single question was explained with a healthy discussion. Even after the course, you can always get in touch with him for any query. He is always happy to help.

I believe that everyone who is interested in improving his or her clinical skills should definitely consider taking up this course. The thing I benefited the most from, apart from the knowledge, was developing a renewed passion for endodontics. The amount I have started reading and researching about every new/old product in endodontics is crazy. This course made me want to excel every time I do a root canal and want to get better with every root canal I do- try to learn something new from every case. It made me start looking at my workflow very differently.

If you are someone who is as passionate about microscopic dentistry- This is the he gateways to your goals! HIGHLY HIGHLY recommended!

**Dr. Nikhil Modi**  
Mumbai

**I was able to implement everything I learned instantly into practice.**

Dr Siju Jacob inspired me to rethink the way I practice dentistry. It changed me from a sceptic who would have been happy with using dental loupes to one who wouldn't settle for anything less than a microscope. Dr Siju made the sessions highly interesting and interactive....and his mentoring continues even now..... Dr Siju is a great clinician with remarkable training skills.

I was able to implement everything I learned instantly into practice.

**Dr. Lekshmy Devi**  
Trivandrum

**He is one of those rare people who can get along with anybody.**

I had the privilege of being trained in micro-endodontics by Dr. Siju Jacob and I must say that it was the best investment I made in my career.

Dr. Siju delivers what he promises. The training is complete, and one can start practicing micro-endodontics from the very next day, like I did. You don't need to go anywhere else, to learn the rest of the tricks.

The biggest benefit of all, is the continuous, committed after-course-mentoring. To conduct a course is easy. But it is extremely difficult to answer questions from hundreds of trainees, at the oddest of hours. Dr. Siju does that. Every. Single. Day.

He also charms everyone with his unassuming, kind and friendly temperament. He is one of those rare people who can get along with anybody. I always looked forward to lunches at his courses, not for the food, but for the conversation.

**Dr. Leeba Varghese**  
Kerala

**I strongly recommend dr jacob for an honest and unadulterated education.**

My quest to discover a mentor culminated in Dr Siju Jacob. The training under him was life changing, both professionally and personally. His fathomless wisdom, global exposure and keen desire to grow and help others grow are the quintessential traits that make him great teacher,, the most underlying and satisfying thing is the constant mentoring that I cherish as he ensures that the silliest of my doubts are well answered, If anybody is looking forward to embark on a microscopic journey,, I strongly recommend dr jacob for an honest and unadulterated education.

**Dr. Dhruvad Mathur**  
Bikaner

Would owe them for a start that would have been impossible otherwise!! A Genuine thank u to you sir...

I still remember the first time I went for Dr. Siju's course, the first day everything felt impossible. The calm, humble environment with light music and sir coming every time and saying this abnormal feeling is absolutely normal so go ahead and do it. That made a huge difference...! From sharing his own genuine experiences to the sheer drive and motivation he instills and to go on with the follow ups to keep you on your toes. That's something nobody would do with their busy schedules. So much so that when I went back to the do the course after 2yrs... Things were still the same or even better! The motivation was like never before and it's truly helped me to imbibe so much more in my practice in relation to micro endodontics. To know sir and his faculty is always there with the promptest response gives a sense of ease in your day to day micro endo practice... So would highly recommend the course with the most humble, talented and amazingly friendly Siju sir and his faculty.

Would owe them for a start that would have been impossible otherwise!! A Genuine thank u to you sir...

**Dr. Esha Parikh**  
Mumbai

**Best part about the course is that Dr. Siju is very much accessible post course**

I had been using the surgical microscope for six years. but was still facing problems. My continuous pursuit to improve the same ended at Dr. Siju's training Centre. The centre is very well equipped which gives a versatile exposure to participants from hands on through DOM to the materials being used. Best part about the course is that Dr. Siju is very much accessible post course, so one gets continuous mentoring. Great experience overall!!

**Dr. Vijita Mehta**  
Chandigarh

**Dr Siju is an awesome mentor with great patience and enthusiasm to teach.**

My journey with microscopes began with Dr Siju in 2017 and since then, there has been no looking back. It's been an amazing journey into the world of magnification. Dr Siju's constant mentorship and guidance at every milestone be it selecting the scope, installing the scope, planning the scope room and then problems we face when finally start working with it makes every tough step easy. Because I know that dr. Siju is always there to help me and guide me in case I have any trouble gives me confidence to go ahead and challenge tough cases. Dr Siju is an awesome mentor with great patience and enthusiasm to teach. In case you are looking to join the world of magnification right way, then don't miss out any chance to learn from him. HE IS THE BEST.

**Dr. Disha Agarwal**  
Kolkata

**He was approachable and continued to be helpful even after the course**

I enrolled in the microscope course in 2018 because I was about to set up my own clinic, and I wanted to learn about integrating a microscope into the clinic setup.

To my surprise, the course was both simple and amazing. We jumped straight into using the microscope after a brief theoretical introduction. The course also helped me assess whether incorporating a microscope would be beneficial for my practice.

Dr. Siju is articulate, concise, and clear in his teaching, offering valuable insights into both the use of the microscope and clinical knowledge. He was approachable and continued to be helpful even after the course, assisting with the layout planning of my clinic.

It's a course I believe everyone should take to gain a different perspective on conventional root canal treatment.

**Dr. Nikhil Jambagi**  
Mumbai

**The course has significantly boosted my confidence in using the scope and refining my clinical abilities.**

I had been following Dr. Siju Jacob's engaging lectures and his exemplary case presentations since my first year of post-graduate studies.

However, it was in 2016, that I had the opportunity to learn the fundamentals of the dental microscope under his guidance. His profound knowledge of the subject, clinical expertise with the microscope, and approachable demeanor make learning from him an enriching experience.

A great teacher simplifies complex concepts, and Dr. Siju possesses a natural talent for explaining and demonstrating techniques in a clear, easily understandable way.

I truly enjoyed being part of his course, and I am grateful for the inspiration he has provided. The course has significantly boosted my confidence in using the scope and refining my clinical abilities.

Thank you Dr. Siju for being such a remarkable mentor!

**Dr. Ranjith Kumar**  
Chennai
